PROFILE

Data-driven Media Buyer with hands-on experience planning and running Meta Ads campaigns (ABO & CBO) for an e-commerce platform, driving profitable growth from launch. Combines paid social expertise with in-house content production — filming, editing, and AI-generated creative — plus a technical background that enables fast, independent execution end-to-end, from creative to landing page. Comfortable owning a campaign from concept through performance reporting.

CORE SKILLS

Paid Social: Meta Ads Manager, Meta Business Suite	Campaign Structures: ABO, CBO
Content Production: Video filming & editing (CapCut), AI image & UGC video generation, stock sourcing (Pexels)	Performance: CPR, ROAS, CPA, CVR tracking & optimization
Team Leadership: Cross-functional team management (Scrum, Kanban)	Technical Edge: Full-stack development background (Angular, Spring Boot) for landing pages & tracking

PROFESSIONAL EXPERIENCE

Media Buyer & Project Manager — Dawema, Tunisia	Oct 2025 — Present
<i>E-commerce platform empowering vendors with marketing & delivery solutions.</i>	
- Planned and executed Meta Ads campaigns using ABO and CBO structures to support the platform's e-commerce launch and growth. - Achieved a Cost Per Result of \$0.70/day and a ROAS of 4.5, turning paid spend directly into profitable, repeatable growth. - Drove a 4.5% conversion rate and generated \$300+ in monthly revenue for the company during its early-stage launch phase. - Produced campaign creative in-house — filming and editing short-form video with CapCut, and generating AI images and UGC-style videos — to fuel a continuous creative-testing pipeline. - Led a cross-functional team of 15 across marketing, delivery, and technical functions, contributing to a 22% overall increase in platform sales. - Directed end-to-end project execution, from concept to final delivery, ensuring all milestones were achieved.	
Full-Stack Developer — LMobile, Tunisia	Jun 2023 — Mar 2025
<i>Technical foundation now applied to landing page development, campaign tracking, and creative execution.</i>	
- Built and optimized data-driven web applications (Angular, KnockoutJS), improving application responsiveness by 25% — skills now applied to fast, independent landing page and tracking setup. - Documented processes and led code reviews, developing strong cross-team communication and quality-ownership habits directly transferable to campaign reporting and optimization.	

EDUCATION

Software Engineering and Information Systems — TekUp University, Tunis (09/2022)
Applied License in Information Technology — Institut Supérieur des Études Technologiques de Nabeul, Tunis (05/2019)
