Open to relocation: France, Germany, Qatar, Saudi Arabia

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3+ years of experience building scalable web and mobile applications with Angular, React, TypeScript, Node.js and Spring Boot across e-commerce, logistics, manufacturing and health & fitness. Currently Technical Project Lead at Dawema, leading a 15-person cross-functional team from architecture to deployment. Hands-on experience with REST APIs, cloud platforms (AWS, Azure, Firebase), CI/CD, automated testing and generative AI integration (Google Gemini API). Seeking an international role that combines full-stack development and technical project delivery.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, PHP, C#, SQL, HTML5, CSS3

Frontend: Angular (15/16/17), React 19, RxJS, KnockoutJS, Tailwind CSS, Chart.js, Recharts, responsive design

Mobile: Progressive Web Apps (PWA), Ionic, Android

Backend: Node.js, Express, Spring Boot, Symfony, REST APIs, JWT authentication, serverless functions (Netlify Functions)

Databases: PostgreSQL, MySQL, SQL Server, MongoDB, Firebase Cloud Firestore

Cloud & DevOps: AWS, Azure, Firebase, Netlify, CI/CD (Jenkins, Azure Pipelines), Git, GitHub, TortoiseHg

AI Integration: Google Gemini API (multimodal, structured JSON output), prompt engineering

Testing & Quality: Vitest, Karma/Jasmine, Playwright, SonarQube, SonarLint, code reviews

Methods & Leadership: Agile (Scrum, Kanban), technical project management, team leadership

PROFESSIONAL EXPERIENCE

Software Engineer & Technical Project Lead | Dawema, Tunisia

Oct 2025 – Present

E-commerce platform providing vendors with marketing and delivery solutions.

- Lead end-to-end technical delivery of the platform, managing a cross-functional team of 15 engineers and specialists from architecture through deployment.
- Aligned the technical roadmap with business priorities, contributing to a 22% increase in platform sales in a competitive digital market.
- Delivered all project milestones on schedule through structured Agile/Scrum practices.

Professional Development | Upskilling & Certifications

Mar 2025 – Oct 2025

- Earned Angular (Sololearn) and JavaScript (Alison) certifications and built the AMÉ Store e-commerce project (Angular 15, Node.js).

Full-Stack Developer | L-Mobile, Tunisia

Jun 2023 – Mar 2025

Software company specializing in the digitization of logistics and production processes.

- Optimized data mapping, making information retrieval 20% faster and more reliable.
- Developed Angular 16 and KnockoutJS components with efficient event handling, improving application responsiveness by 25%.
- Documented new features, reducing onboarding time for junior developers by 30%.
- Performed code reviews, reducing production bugs by 15%.

Tech stack: Angular 16, TypeScript, Node.js, KnockoutJS, C#, SQL Server, IIS, SonarQube, TortoiseHg, Visual Studio 2022

Frontend Developer | Synexio, Germany

Sep 2022 – Feb 2023

Cloud solution for real-time visualization of production plans.

- Optimized real-time visualization of production plans, reducing data consultation time by 30%.
- Improved application performance by optimizing UI/UX components, increasing interface responsiveness by 25%.
- Created and executed end-to-end test scenarios with Playwright, ensuring application reliability and stability.

Tech stack: Angular, TypeScript, JavaScript, Azure, Azure Pipelines, Cumulocity IoT, Playwright, Git

PROJECTS

Zid | AI Nutrition & Fitness Tracker (PWA)

2026 – Present

Personal project | github.com/achrefbenabdallah/Zid

- Built a mobile-first, bilingual (English/Arabic with full RTL support) Progressive Web App for nutrition and strength-training tracking, installable on mobile and usable offline.
- Integrated the Google Gemini API through a secured serverless function: users photograph a meal and receive estimated calories and macros per food item, with Firebase ID tokens verified server-side (JWT/JWKS) so the API key never reaches the browser.
- Implemented Firebase Authentication (email and Google sign-in) and Cloud Firestore with per-user security rules and data validation; added barcode scanning (ZXing) with the Open Food Facts API.
- Built a 130-exercise illustrated workout library with rest timer, personal-record detection and MET-based calorie estimates, plus progress charts, reminders, CSV/JSON import-export and 40+ unit tests (Vitest).

Tech stack: React 19, TypeScript, Vite, Tailwind CSS, Firebase (Auth, Firestore), Google Gemini API, Netlify Functions, Recharts, i18next, Vitest

AMÉ Store | E-commerce Storefront

2025 – Present

Personal project for my own brand, AMÉ

- Built a single-page e-commerce application (SPA) in Angular 15 and TypeScript with product catalog, navigation and client-side purchase flow.
- Designed a decoupled order-management REST API (orders-api) in Node.js for order processing and tracking.
- Optimized product images with Sharp to reduce load times; set up continuous deployment on Netlify and unit tests with Karma/Jasmine.

Tech stack: Angular 15, TypeScript, RxJS, Node.js, Sharp, Netlify, Karma/Jasmine

Fashion Tool | Inventory & Sales Management Platform

2026 – Present

Personal project for fashion vendors

- Built a secure multi-user REST API with JWT authentication, bcrypt password hashing and PostgreSQL, scoping products and sales per user.
- Automated real-time profit tracking, computing margins against fabric and product costs on every sale.
- Built an analytics dashboard with Chart.js and product image uploads with Multer, giving vendors instant visibility into revenue and stock.

Tech stack: Angular 17, Node.js, Express, PostgreSQL, JWT, Chart.js, Multer

EDUCATION

Engineering Degree in Software Engineering & Information Systems TekUp University, Tunis	2022
Applied Bachelor's Degree in Information Technology ISET Nabeul, Nabeul	2019

CERTIFICATIONS

- Angular | Sololearn | March 2025 | Credential ID: CC-7D4VKP23
- JavaScript | Alison | April 2025 | Credential ID: 1434-48235625

LANGUAGES

Arabic: Native | English: Professional working proficiency (B2) | French: Intermediate (B1–B2)
